- Make sure ideas flow logically from one section to the next.

- Use charts and graphs to illustrate data (avoid large tables of raw data).

- Use high-resolution photographs (web images often will not work).

- Do not use all capital letters.

- The use of a typewritten, handwritten, or printed PowerPointTM presentation as a poster is unacceptable. Presentations in these formats will be removed.

- Keep consistent margins.

- Keep line spacing consistent.

- Keep the color, style, and thickness of borders the same.

- Keep shading consistent.

- Pick no more than 2–3 fonts

- Pick no more than 2–3 colors
