

**A REPORT ON FIRST AID TRAINING PROGRAMME ORGANISED BY
THE DEPARTMENT OF EDUCATION, IIS (deemed to be UNIVERSITY),
JAIPUR**

This life is a boon to us given by the Almighty and we all should take care of this boon. As a human we are also committed to protect not only ourselves but also other members of our society. Life is prone to risk and accidents and emergencies are a part of one's life. With a vision to getting the students prepared for the unforeseen situation a first aid training was organised for the students of department of education. The students were given training to provide basic first aid in case they face any emergency situation around them. A teacher needs to deal with children who are not up to themselves in case of any such situation, therefore, the department planned this training for them on 22nd October, 2019. The training was given by Ms. Agimol, Staff nurse, IIS (deemed to be UNIVERSITY), Jaipur. The training was useful and gave the students lifelong learning.
