## THE INTERNSHIP HAS TO BE MEANINGFUL AND MUTUALLY BENEFICIAL TO THE INTERN AND THE ORGANIZATION

Internships are educational and career development opportunities that provide practical experience in a field or discipline. They are structured, short-term and supervised placements, often focused around particular tasks or projects with defined timescales. An internship may be compensated, non-compensated or some time may be paid. The internship has to be meaningful and mutually beneficial to the intern and the organization.

At the end of the second semester examination, it is mandatory for every student pursuing MBA to undergo on-the-job practical training in any organization of her choice. The training must be of 6 to 8 weeks' duration. During the training, the student is expected to learn about the organization and analyse and suggest solutions to a live problem. The objective is to equip the

students with the knowledge of actual functioning of an organization and problems faced by them for exploring feasible solutions.

The student, after the completion of training will submit a detailed report which will form a part of the third semester examination. She will be required to make the presentation of the work followed by viva-voce. The students are required to submit a certificate from the organization regarding successful completion of internship.

At IISU, we follow the AICTE Internship Guidelines in all the MBA programmes

Simply put, through internships or experiential education, students learn by doing. Summer Break Starts from May till 45 days or even longer, depending on your project needs and the company's policy.
