## INCEPTION

The IISU grew out of the International College for Girls (ICG) which was established in 1995, as a college affiliated to the University of Rajasthan. Since then, ICG has crossed many significant milestones in its journey towards excellence in higher education. Besides receiving numerous other accolades, it was accredited A+ by the NAAC of UGC in 2005. It was also identified as a Model College by the state government in 2006 and thereafter it was conferred the status of Autonomous College in 2007 by the U.G.C. It was further recognized as a College with Potential for Excellence (CPE) by the UGC in 2010. In a national survey conducted by AC-Nielsen-ORG MARG, also in 2010 for the *India Today* magazine, ICG was rated as the topmost college in the state in Arts, Science and Commerce streams. Ranked among the top 30 institutions of the country in this survey, the College became a symbol of quality education and women's empowerment. The institution while working as an Autonomous College was declared as Deemed-to-be-a-University by the Ministry of Human Resource Development (MHRD), Government of India, vide its notification dated 2<sup>nd</sup> Febraury, 2009, issued under Section 3 of the UGC Act, 1956. This, more than an achievement, was a reaffirmation of our faith in the quality and innovation, in research and academics taken up at the institution right from its inception in 1995. Soon after becoming Deemed University in the name and style of 'The IIS University', in a review conducted by the 'Tandon Committee' constituted by the MHRD, it was recognized for its competence and strength and was placed in category 1, along with the 37 other Deemed-to-be-Universities of Category 1 across the country. This has accorded IISU greater reliability and credibility and provided with a unique opportunity to explore and put in place what is needed to empower its students through the three Es -Efficiency, Excellence and Effectiveness and prepare them as worthy citizens, ready to take up social and economic reforms with a scientific aptitude.

Thus, from a visionary beginning in 1995, IISU is now moving on to new heights as a digitally smart campus with contemporary and relevant programmes and e-learning systems. Alongside its rapid growth and development, the University retains a friendliness and warmth, which has characterized the institution from its early days. With about 5000 students on its rolls and more than 300 faculty and staff members, it offers Undergraduate, Postgraduate and Doctoral degree programmes in streams like, Arts, Humanities, Visual Arts, Science, Home Science, Social Sciences, Computer Science and IT, Commerce and Management, Fashion Designing, Jewellery Designing etc. A multidisciplinary University, its curriculum requires both breadth of learning and in-depth knowledge and prepares its graduates to be problem- solvers, communicators and ethical citizens of a global community.

Now, both of them reach the finish line at the same time, who would you declare the winner.” She asserted. One of the contestants took to help of a research to speak in the house of the notion. She said that a research conducted by an online company, found out that companies lead by women perform better than companies lead by men. On the other hand, the contestants who spoke against the notion were equally convincing. One of the contestants stated that our country needs a practical leader and not an emotional one. Results were announced towards the end of the competition. Ms. Anupriya from Banasthali while speaking against the notion stood at third position while Ashi Goyal who spoke in against and Apeksha Tikkoo spoke in favor of the topic bagged second and first position respectively. Mr. Germ is a champion of human rights and an engaged humanitarian who has worked with imagination and insight to move the World in the direction of progress and peace, to build new possibilities and bring people together around a shared sense of purpose.

The convocation ceremony witnessed many renowned Rotarians in attendance including Mr. Manoj Desai, Rotary International, Director.

Dr. Gupta welcomes graduands

“The values you learnt in IISU- of hard work, of serving others with honesty and diligence, with humility and integrity, should enable you to notice a world beyond yourself. Put these values into practice by serving the less fortunate members of society. Through service you will find a citizenship that is meaningful, a citizenship that is dignified,” while congratulating students on their success, Dr. Gupta has said.

He also motivated the students by saying that the future is not a result of choices amongst alternative paths offered by the present, but a place that is created – created first in the mind and will, created next in activity. The future is not some place we are going to, but one we are creating. The paths are not to be found, but made.

World requires love and tolerance: Dr. Shetty

The Chief Guest on the occasion, Dr. Devi Shetty while delivering convocation address has said that this University is primarily a women’s university is a matter of great personal significance to him. One person whose life and work have tremendously influenced the mission of his life was a woman - Mother Teresa. He was first introduced to her as her doctor way back in 1984, when she had had a heart attack and he looked after Mother Teresa for the last five years of her life.

While sharing his experience on how Mother Teresa influenced him, “Mother strongly believed that love is the most powerful weapon, which can actually conquer the world and that teaching has impacted me tremendously and I truly believe that the entire world must believe that, because if there is something the world requires today it is love and tolerance.” he said.

Innovation is the need of the hour: Dr. Devi Shetty

While sharing his experience in introducing health insurance scheme for farmers in Karnataka with a monthly premium of just five rupees a month, he said that innovation is the need of the hour. Dr. Shetty was confident enough to say that if we apply our minds with seriousness, solutions are not difficult to find.

Out of six areas in Rotary, education is utmost important: Shri John F Germ

After receiving Honorary Degree of Doctor of Letters, Shri John F Germ, RI President has said that they have six areas of focus in their Rotary service. And he couldn't pick one of them that's most important, because each one is built on the others. Water, sanitation, education, health, peace, and economic development are all woven together too tightly to unravel. But if you're looking toward the future, and you're planning for the long term—which is what Rotarians do—then he doesn't think there's any question, that the most important of those areas would be education.

56 scholars walked away with gold medals out of which 15 were from Arts and Social Sciences, 18 from commerce and management, 17 were from Science and 6 from Advanced Diploma Courses.
