PREFACE

I have great pleasure in presenting to you the 7th Annual Report of The IIS University, Jaipur for the academic year 2015-16.

The Annual Report is presented as per our annual practice, comprising University Administration & Bodies, Admissions, Research Endeavours, Placements, Co-Curricular Activities and Achievements. The report largely addresses the activities of various departments at the University and the significant achievements of both the members of the faculty and the students. It also covers the administrative procedures and hierarchies within the system, offers a detailed analysis of the evaluation records, and gives insight into the placement records of the University.

Since its inception in 1995, The IIS University is now moving onto new heights as a digitally smart campus with relevant programmes and e-learning systems. As is expected of an academic institution, we have grown steadily in terms of infrastructure, student and staff strength, addition of contemporary courses and research output.

The Annual Report reflects the various facets of academic and co-curricular activities at the University, and by extension, the vibrant academic ethos of the University which co-exists with co-curricular and sports activities, reflective of our belief in all-round development.

Dr. Ashok Gupta
Vice Chancellor
The IIS University, Jaipur

INCEPTION

The IISU grew out of the International College for Girls (ICG) which was established in 1995, as a college affiliated to the University of Rajasthan. Since then, ICG has crossed many significant milestones in its journey towards excellence in higher education. Besides receiving numerous other accolades, it was accredited A+ by the NAAC of UGC in 2005. It was also identified as a Model College by the state government in 2006 and thereafter it was conferred the status of Autonomous College in 2007 by the U.G.C. It was further recognized as a College with Potential for Excellence (CPE) by the UGC in 2010. In a national survey conducted by AC-Nielsen-ORG MARG, also in 2010 for the *India Today* magazine, ICG was rated as the topmost college in the state in Arts, Science and Commerce streams. Ranked among the top 30 institutions of the country in this survey, the College became a symbol of quality education and women's empowerment. The institution while working as an Autonomous College was declared as Deemed-to-be-a-University by the Ministry of Human Resource Development (MHRD), Government of India, vide its notification dated 2nd February, 2009, issued under Section 3 of the UGC Act, 1956. This, more than an achievement, was a reaffirmation of our faith in the quality and innovation, in research and academics taken up at the institution right from its inception in 1995. Soon after becoming Deemed University in the name and style of 'The IIS University', in a review conducted by the 'Tandon Committee' constituted by the MHRD, it was recognized for its competence and strength and was placed in category 1, along with the 37 other Deemed-to-be-Universities of Category 1 across the country. This has accorded IISU greater reliability and credibility and provided with a unique opportunity to explore and put in place what is needed to empower its students through the three Es -Efficiency, Excellence and Effectiveness and prepare them as worthy citizens, ready to take up social and economic reforms with a scientific aptitude.

Thus, from a visionary beginning in 1995, IISU is now moving on to new heights as a digitally smart campus with contemporary and relevant programmes and e-learning systems. Alongside its rapid growth and development, the University retains a friendliness and warmth, which has characterized the institution from its early days. With about 5000 students on its rolls and more than 300 faculty and staff members, it offers Undergraduate, Postgraduate and Doctoral degree programmes in streams like, Arts, Humanities, Visual Arts, Science, Home Science, Social Sciences, Computer Science and IT, Commerce and Management, Fashion Designing, Jewellery Designing etc. A multidisciplinary University, its curriculum requires both breadth of learning and in-depth knowledge and prepares its graduates to be problem- solvers, communicators and ethical citizens of a global community.

THE IISU COUNCIL

The Students' Council of the IIS University is the representative body of the entire student community. It is the interface between the students and the administration and the two work together to identify and address concerns that affect the students directly and indirectly. It represents the interests of the students and participates in discussions and decisions that affect the entire student body.

The members of the council are nominated through an open and transparent system which ensures that students from all faculties, programmes and departments have an equal opportunity of being selected. The members of the Council are nominated for a term of one year.

From acting as the students' voice and ensuring that each student gets the best out of their university experience, the Council works with a focus on an all round development of students. It organises several co-curricular events through the year, in association with the various activity clubs/ guilds on campus. The Council also organises most major events of the University like the Freshers' day, Thank You get together, the Annual day and the much awaited annual cultural fest - Cosmos. It is also actively involved in coordinating the participation of students in Inter University competitions and fests.

An extremely important domain of The Council is its role in streamlining the student volunteer effort for the Institute events that are organized periodically. ANNUAL PLAY -"SALEEB"

The theatrical society of The IIS University organised a one month theatre workshop from 4th August to 3rd September and staged the Annual play on 4th September 2015 at the IIS Auditorium, which was a result of the same. The workshop was organised by 5 SENSES, a Mumbai based theatre group. The play was directed by Mr. Oasis and Mr. Dhirendra.

The play was an irony on the human society as a whole. The plot of the play depicted the difference between humans and scarecrows and showed how humans are turning into scarecrows by losing their humanity and destroying others for their own benefit. It also presented the suppression of lower class by the more powerful and elite people of the society.

The most important and interesting aspect of the play was, that the whole script was self written.

The performance began in a narrative style and told the story of two villages, one with higher class powerful people and the other the lower class people who made scarecrows. There was effective use of lights and sound which helped in building atmosphere and most importantly enhanced the play. The highlights of the play was crocodile dance and most importantly the climax scene of the play "THE COURT SCENE" which was the heart of the play which showed the dying humanity and presented how humans cunningly can make innocents into villains.

The play ended by RORY(the protagonist scarecrow) giving the answer of how he came to life and telling the meaning of true love by giving up his own life for other. The show was witnessed by more than 400 people including students, teachers, parents and various theatre artists and had a large media coverage.

LECTURE ON AVIAN CONSERVATION

4 January 2016

The degradation of the environment in the present times has affected all the living beings on this planet-whether human beings, fauna, flora and even the climate and the weather etc. In this degradation the humans have a large role as they have exploited the environment mindlessly leading to increasing levels of pollution, deforestation, mining of the resources leading to the depletion of the Ozone layer etc. All these man made activities have resulted in alteration in the pattern of the cycle of nature and global warming etc. We with our actions have also adversely affected the animal and plant world by cutting down the forests and displacing both. In the rat-race of the time we have further become cold hearted towards the pains and agonies of the living world. On the festival of MakarSakranti, we fly kites and enjoy mindlessly and have no concern for the avian world. Thus to make the people aware of the hard times that the birds face due to kite flying on the day of MakarSakranti and the careless attitude of the people to pay no attention to the birds so injured with the glass coated Manjha, the Avian conservation awareness lecture was organized on 4th January , 2016.

The team of volunteers headed by RohitGangwal from RakshaOrganisation of Jaipur interacted with the NSS volunteers. The lecture was focused on the avian conservation in the light of the arrival of the festive season of Makar Sankranti. Mr. Gangwal told that the sky belongs to the birds and we encroach their space by flying kites just hampering their flights. So we should take care to not fly the kites between 6 to 8 in the morning and 4 to 7 in the evening. The second important point that he raised is to stop the use of glass coated maanja for flying kites as the birds get cuts and are injured and sometime loose their life too and are unable to fly forever. Thirdly he informed about the Bird-relief camp which this NGO would set up at 3 places in the city where the injured birds could be brought for treatment. And lastly he shared the helpline number through which a mere phone call would be enough on which a volunteer from Raksha would take the injured bid for treatment.

On his occasion it was decided that to hold a joint rally in the Mansarovar area on 8th January at 9.30 a.m.

AVIAN CONSERVATION RALLY WITH RAKSHA

The students in files of three walked across Madhyam Marg, via Durgadas Park and reached B-2 bypass and finally converged in the IIS University campus. The students carried banners and posters with slogans on Avian conservation such as 'Stop the use of glass coated maanjaa', 'Save the Birds', 'Do not fly kites between 6-8 a.m. and 5-7 p.m.', 'Bring Injured Birds to the Bird Treatment Camp', etc. This rally was done under police supervision and was covered by media. This is the way to success". Further, "If you have faith in all the three hundred and thirty millions of your mythological gods, and still have no faith in yourselves; there is no salvation for you. Have faith in yourselves, and stand up on that faith and be strong; that is what we need."

Equal Opportunity Cell

The IIS University has introduced this Cell in order to curb down the deprivations that the marginalized groups, identified as SCs, STs, OBC (non-creamy layer), minorities, physically challenged, face barriers of denial of access to materials, cultural and educational resources and to promote the deserving, yet socially disadvantaged students. The Institution has been conferred with grants and scholarships, during its Autonomous status, for students to give them an opportunity to excel in preferred fields. These scholarships have been a huge motivation to introduce a separate unit which will work specifically towards the promotion of female students coming from these social groups. Currently, the Cell is catering to the needs of almost 400 students of The IIS University.

SEMINAR ON 'ACCESS TO HIGHER EDUCATION FOR ALL'
A one day seminar was organized by the Equal Opportunity Cell, The IIS
University on 27 February 2015

The brief introduction of the various activities taken by the EOC was given by Dr. Garima Srivastava.

Dr. Varma acknowledged his old classmate Prof .Sharma for holding the fort. Recollecting French Revolution he said the motto was the trinity of Equality, Liberty and Fraternity as these cannot exist in isolation. Indian Constitution speaks of liberty, secularism and socialism. Higher education should be open to all regardless of caste, color, religion, sexual orientation, disability and gender. Access is most important. To create a society without discrimination it is essential to abolish mono culture. He addressed on the discrimination against women and disability and wished all students to speak up against any such expressions in University campus even to the extent of forming student union.

Prof. Kanchan Mathur from IDS Jaipur started with an informal interaction about gender discriminating practices with participants leading to stereotypical rules for girls. Men have to become earners and women home-makers irrespective of their choices making boys, assets and girls, liabilities. She was concerned about the Child Sex Ratio dropping to 881 in 2011 from 906 in 2001. In search of change they did a study of Indian Champions – the first time learners in Rajasthan to find positive indicators which enabled them to reach college in spite of odds. They did not have equal opportunities. Access in benefiting Government programs helped them to overcome pressures of marriage from extended families and society.

Dr. Tanmoy Bhattacharya, Associate Professor from Linguistic Department Delhi University started with a saying from Socrates, 'Unexamined life is not worth living' encouraging participants when they first come in University to question oneself in relation with others. University is a place where there should be space for all equally. Conservative instruments on Census in India tell us that the % increase from 2001 to 2011 in disabled person is nominal from 2.1% to 2.2% but we should accept the UN figures on 10% persons with disability in India. He equated disability with gender in reference to social construction.

He had put a lot of effort into making a very informative presentation on Disability and Education. He began by talking about persons with disability, stressing on the use of language while addressing such individuals. According to him, language plays an essential role in our lives and it can have positive and negative connotations. Thus, it is necessary to choose our words wisely. He expressed his concern about the deplorable conditions of special schools and special tutors for the deaf. He was saddened with the situations in our country, with the inhuman conditions people with disability have to face.

His talks had a great impact on the audience. It sensitized us towards these crucial issues which have been given little thought. He ended his lecture on a happy note, hoping that as people become more aware of the truth, things will change for the better. The audience was immensely moved and inspired. In the end, there was a question round where Mr. Bhattacharya answered the queries from the audience. All the guests in the seminar were presented a memento as a token of appreciation.

The seminar ended with a formal vote of thanks by Dr. Lata Shahani.
